

PIONEERS IN ORGANIC FAIRTRADE FOOD

AlterNativa3 is a cooperative which manufactures organic Fairtrade products since 1992.

Our goal is to offer responsible, sustainable and high-quality alternatives to your everyday products, especially coffee, cocoa and cane sugar.

We know that fair trade is an effective tool to eradicate the inequalities and poverty generated by conventional international trade.

Therefore, in addition to manufacturing our products, we carry out different workshops in order to raise awareness and also lead social projects in the Global South countries to support the processing cooperatives in its growth.

Did you know that many of the products we consume hide several forms of child exploitation?

The producing families from who we get our coffee, cocoa and sugar live in Africa, Asia, Central America and South America.

In most of these countries, Human Rights are not respected, women have no access to landowning and child labor is systematic.

Lots of the products we consume daily aggravate this situation. AlterNativa3 is the solution: we offer ethical options to your everyday products.

Thanks to Fair Trade, people from the producing cooperatives improve their family and community life conditions.

Who was the the first company that imported a full container of organic coffee in Spain? AlterNativa3, at the beginning of the 90s

It all started with Rosa and Antonio, who were pioneer in importing organic Fairtrade foods in our country.

Their vision had a positive response from consumers and for 30 years, AlterNativa3 has been offering premium quality coffee, cocoa and sugar.

Over 400 delicious and very healthy products. All of them are organic and elaborated with no chemical products nor treatments which are harmful for health and the environment.

Check the labels. You will see that the ingredients list is very short: no additives, all natural.

You take care of your health, the people and the planet with sustainable and Fairtrade options for your everyday products.

AlterNativa3 is a small family cooperative, but thanks to you, we do big things.

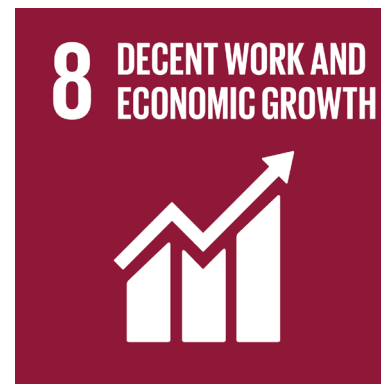

Fair trade and the SDGs: Together for a fairer and more sustainable world

At Alternativa3, we believe that fair trade is a powerful tool to achieve the Sustainable Development Goals (SDGs) and build a fairer world for all. We stand for an economic model that puts people first, ensuring fair prices, decent working conditions, and respect for the environment.

Fair trade directly supports several key SDGs: we fight poverty (SDG 1), promote gender equality (SDG 5), ensure decent work (SDG 8), and reduce inequalities (SDG 10). Moreover, we encourage responsible production and consumption (SDG 12) and take action against climate change (SDG 13) through environmentally friendly practices.

By choosing fair trade products, you support a system that prioritises people, equality, and sustainability. Together, we can transform the way goods are produced and consumed, contributing to a fairer future for everyone.

Trasnocho Coffee

At Alternativa3, we are passionate about coffee and health. That's why we created Trasnocho, a unique line of keto-friendly coffees.

Why choose Trasnocho?

- **Healthy innovation:** The first whole bean coffee that integrates coconut MCT oil directly into each bean through an exclusive process.
- **Clean and sustained energy:** Provides a natural source of energy without glucose spikes—perfect for everyday life or peak performance moments.
- **Ideal for keto and intermittent fasting:** MCTs (medium-chain triglycerides) are quickly metabolized, supporting ketosis and satiety.
- **Physical and mental performance:** Enhances focus, endurance, and fat burning, helping reduce fatigue and maintain muscle mass.
- **Flavor and functionality in balance:** Each variety delivers specific benefits through organic ingredients such as cardamom, cinnamon, and mint.
- **Exclusive process without added flavors:** Not flavored or infused coffee; MCT is incorporated into the bean itself to preserve stability and properties.
- **Committed to people and the planet:** A unique proposal that brings together wellness, sustainability, and coffee tradition in every cup.

Keto coffee with coconut MCT

Whole bean coffee with MCT. 100% Arabica, medium-light roast. Organic & Fairtrade.

EAN: 8435030576621 **Code:** 006033 **200 g.**

Ingredients: whole bean coffee, coconut MCT.

A functional coffee with a naturally creamy texture that delivers stable, long-lasting energy. Perfect for keto diets and intermittent fasting. Supports enhanced physical and mental performance.

Keto coffee with coconut MCT and cardamom

Whole bean coffee with MCT and cardamom. 100% Arabica, medium-light roast. Organic & Fairtrade.

EAN: 8435030576607 **Code:** 006030 **200 g.**

Ingredients: whole bean coffee, coconut MCT, cardamom.

Enjoy the benefits of keto coffee enriched with cardamom, a spice traditionally valued for its digestive properties and its ability to balance coffee's flavor profile.

Keto coffee with coconut MCT and cinnamon

Whole bean coffee with MCT and cinnamon. 100% Arabica, medium-light roast. Organic & Fairtrade.

EAN: 8435030576614 **Code:** 006031 **200 g.**

Ingredients: whole bean coffee, coconut MCT, cinnamon.

A true sensory and nutritional experience, where the warm, spiced profile of cinnamon creates a comforting and highly enjoyable taste.

Keto coffee with coconut MCT and mint

Whole bean coffee with MCT and mint. 100% Arabica, medium-light roast. Organic & Fairtrade.

EAN: 8435030576638 **Code:** 006032 **200 g.**

Ingredients: whole bean coffee, coconut MCT, mint.

Perfect as a functional after-meal coffee, mint not only supports digestion but also adds a fresh, balsamic note that balances the coffee's flavor and makes it lighter on the palate.

COFFEE WITH ADAPTOGENIC MUSHROOMS

Enhance your daily coffee with adaptogenic mushrooms for a natural boost. These powerful fungi help balance stress, support immune function, and improve focus, promoting overall well-being. Blended into your favourite brew, they offer a smooth and nourishing way to elevate energy levels without the crash, making every cup a healthier choice.

Lion's Mane coffee

150 g.

Ground coffee, organic, Fairtrade, natural roasting, 100% Arabica

EAN: 8435030576553 **Code.** 006016

The Lion's Mane coffee blend is designed to enhance performance and wellbeing. This adaptogenic mushroom is known for its bioactive compounds and polysaccharides, which support cognitive function. Combined with 100% Arabica, naturally roasted for a smooth flavour and low acrylamide content, it offers an ideal balance of quality and benefits.

Ingredients: ground coffee, Lion's Mane powder.

*Boost your coffee,
boost your day*

Reishi coffee

150 g.

Ground coffee, organic, Fairtrade, natural roasting, 100% Arabica

 **EAN:** 8435030576546 **Code:** 006013

A blend of 100% Arabica coffee and Reishi, an adaptogenic mushroom known for its antioxidant and immune-supporting properties. This smooth, naturally roasted coffee helps the body adapt to stress. With low acrylamide content and high-quality ingredients, it offers a balanced, health-conscious option for coffee lovers seeking wellness.

Ingredients: ground coffee, Reishi powder.

Shiitake coffee

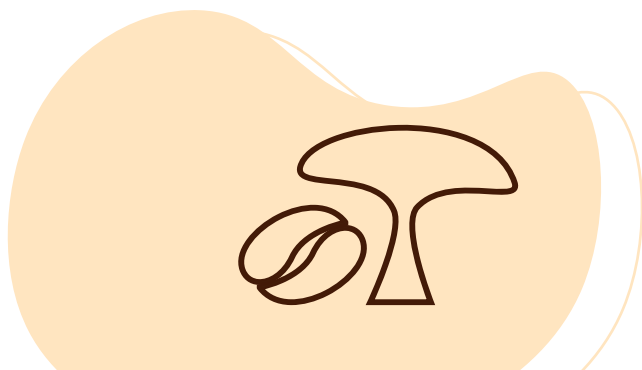

150 g.

Ground coffee, organic, Fairtrade, natural roasting, 100% Arabica

 **EAN:** 8435030576560 **Code:** 006015

Organic ground coffee with Shiitake mushrooms, recognised for its ability to boost immunity and enhance resilience. Crafted with 100% Arabica beans, naturally roasted for a smooth flavour and low acrylamide content. This unique blend combines health benefits and great taste, offering a natural way to support the body's defences and promote overall well-being every day.

Ingredients: ground coffee, Shiitake powder.

Your coffee, freshly roasted with medium-low roasting, ensuring very low levels of acrylamides while preserving all its organoleptic characteristics thanks to our selective production process.

It is grown by small cooperatives in southern countries, where Fair Trade helps improve the living conditions of their families and communities.
